

# Phase 1 Reopening

NB: Phase 2 will be finalised when the school is certain that Phase 1 has been successful, and once we can review what is required to ensure the safety of increased numbers of students on site. To protect the safety of the students, given difficulties ensuring social distancing measures, we will need to have a top limit of numbers of students in the building at any one time. Therefore, students who do return in Phase 2 are likely to be offered a revised provision, such as being in school only for part of a week or during alternate weeks. However, any plans are subject to change depending on Government guidance and any learning during Phase 1.
