

Sports premium 2019-2020- Allocated £16,000 from DFE, £195 c/f from 2018/19 total £16,195			
Item	intent	Impact	Cost/allocation
OT assistant Contribution to salary	More complex students can access sensory circuits/ integration to be able to regulate behaviour and access learning. Students are able to increase motor skills to access their environment more independently.	OT assistant to support Physical movement and sensory integration for our most complex student one day a week. Students more confident/ independent and ready to access learning environment.	£5,968
Sensory OT items	To contribute to sensory circuit sessions and OT sessions. It will enable all students to access some form of P.E or movement breaks.	Students are more regulated and have developed their motor skills and core strength.	£275
Swimming lessons Virgin pools.	All students to receive a module of swimming lessons.	Students improved their confidence in the water and their swimming stamina.	£2,273
Playground equipment	Equipment for storing and moving larger apparatus for P.E	Students had access to the P.E equipment for their lessons and playtime and the safe storage meant that the equipment was in good and safe condition for them to use.	£1,043
Video cameras	To use in P.E OCR exam. To record student activity.	Staff were able to easily record the students during lessons and provide the correct evidence towards their accreditations.	£150
		Total	£9,709 CF- £6,486

For this year we used our grant to help develop movement, core strength and motor skills with our more complex students. We invested in more sensory and OT equipment, as well as contributing to CPD for our OT and assistant OT. We also used the funding to provide swimming lessons and instructors for our students to increase their water confidence, safety and swimming strokes.
